

TTPU

Temporary Telco Power Units Start the Shot Clock

Motive's Temporary Telco Power Unit "TTPU" is a quickly deployable and scalable power solution. Its hardened design also means that it deploys faster and easier than a diesel generator while providing 5A @ -48V of green energy.

SUPPORT

- Scalable solar powered system delivers up to 5A @ -48V to fiber provider's equipment upon delivery
- Triggers the 45-day shot clock for fiber delivery or "early telco"
- Can deliver A&B power feeds to both carrier and LEC routers
- Environmentally friendly-zero emissions
- Deploys faster and easier than a diesel generator
- Small footprint - 5' x 4' x 6' - can be used on a rooftop
- Modular and expandable for larger loads
- Optional supplemental generator for remote locations
- Available to purchase, rent, or lease
- Off Grid
- Silent
