Camera Trailer Mobile Surveillance for Any Location

A fully self-sustained, solar-powered mobile surveillance unit designed to provide high-definition live streaming and data capture in any environment.

The Camera Trailer features a 30-foot telescoping mast, supporting a cluster of pan-tilt-zoom (PTZ) cameras, license plate readers, and advanced audio-visual components, ensuring comprehensive monitoring and recording.

Equipped with dual solar panels and a backup battery system, the Camera Trailer delivers continuous, uninterrupted power for long-term deployment.

Ideal for disaster recovery, job sites, parking lots, construction zones, cell sites, and any high-risk areas, this rugged and towable solution enhances security by deterring and identifying potential threats in real time.

Whether stationary or relocated, the Camera Trailer offers unmatched visibility and reliability to protect valuable assets and deter theft.

Effortless Remote Monitoring

Designed with user-friendliness in mind, the Camera Trailer requires no specialized technical knowledge to operate. With a simple and intuitive interface, users can quickly initialize the system to start monitoring with just a few taps on a touchscreen or mobile device. Once deployed, the live video feed can be securely accessed from any computer, tablet, or smartphone, allowing remote monitoring from anywhere. Whether you need to watch live footage, review recordings, or adjust camera settings, the system is designed for seamless access and control.

Live NOC services are also utilized to ensure that you have monitoring coverage even while you sleep.

Features
